How to reheat Tobin's at Home.

Preheat oven to 450° and place pizza on shelf or open rack for best results. It can be placed on cookie sheet if you like it less crisp. (Microwave cooking seems to make our dough soft and moist.)

Be sure to remove the paper and cardboard before putting pizza in oven.

We can pre-cook your pizza so you may finish it later at your convenience.

Thanks,
The Tobins

Tobin's Pizza Story

Our pizza begins with a not real thick yet not paper thin, golden crust, never soggy and never messy on the bottom or sides (like our competitors).

Of course we make this crust and roll it ourselves to get it this way.

Next we top this golden crust with our mildly seasoned, red ripe tomato sauce.

Next and almost last is the cheese, rich and buttery always cooked till it is golden (never stringy or burned). This cheese is made only for Tobin's in Wisconsin, of course.

Now for the finishing touch. Maybe cheese alone. It's good enough alone. Or maybe Bacon precooked and drained so as not to be greasy. Sausage made fresh every day from only pure pork butts, no trimmings or additives. We add a few Italian spices and herbs.

Fresh, tender baked Ham (enough said). Pepperoni, mild yet tangy (a little on the greasy side).

Maybe you want us to throw on a few (always fresh, never dehydrated) onions sliced fresh daily or fresh chopped crisp green peppers. Still undecided? Maybe use USDA Ground Beef (no trimmings or fat) or juicy buttery thick slices of tender mushrooms. Well how about ripe green olives for something a little different.

Well now you know what we have to offer in the way of different trimmings.

Tell us what you want, maybe mix it up or half and half.

Momma's got a Story too!

We make a bread type dough, that when finished is light like bread, not a soggy noodle dough. Then we take our own blend of cheese and cover the dough completely.

Next we top this with generous portions of your favorite topping such as sausage made fresh everyday from only pure lean pork butts, no trimmings or additives. We add a few Italian spices and herbs.

Or how about pure USDA Ground Beef (no trimmings or fat) or juicy buttery thick slices of tender mushrooms.

Maybe you want us to throw on a few (always fresh, never dehydrated) onions sliced fresh daily or fresh chopped crisp green peppers.

Still undecided? How about mixing it up or half and half; maybe even cheese alone. It's good enough alone.

Next we take whole cooked tomatoes and break them up and put a heaping helping on top. We then add another cheese and sprinkle a couple of herbs and spices on top of this and then bake it in a deep pan till it's "justa right."

We hope you try our pizza. It is very filling so maybe we can suggest starting with a small one. We'd love to sell you a Momma Mia but it breaks our heart to see delicious pizza go to waste.

Our pizzas take a little longer to bake than "what's his name" but we think that after you try them you'll be glad you waited the few extra minutes.

Why do Jim Tobin & Momma Teresa bring their pizza together?

It is a case of economics and judgment — our prices can stay lower by combining two businesses into one and having two completely different tasting pizzas for a combined effort, with the end result being the TWO BEST PIZZAS IN TOWN.

We hope Tobin's regular customers will continue to be and we hope the people who find our pizza not to their taste will try Momma Teresa's and love it.
