

Joshua Dinkel

EDUCATION

University of Arkansas, Fayetteville — *Bachelors in Psychology*

Aug. 2019 - May 2024

I have maintained a high GPA while moving through the transition of moving to another state. Despite living alone and away from home for the first time I managed to create a support network in Arkansas that has helped me to reach further success in college. I have maintained academic success and am continuing to pursue my academic knowledge through further education in graduate school. I have formed professional connections through organizations at my university. Through university-organized events, I have established relationships that will allow me to acquire a job in my field more easily. I continue to pursue a degree in psychology as my undergraduate. I am expected to graduate with my bachelor's in psychology in May 2024

Organization
Efficiency
Positivity
Adaptability
good work ethic

responsibility
Problem-solving
Communication
computer skills
financial efficiency

EXPERIENCE

Goodwill, Fayetteville — *Donation intake*

July 2023 - Oct. 2023

I was in charge of receiving and processing donations. I managed the delivery and pick-up coordination with delivery trucks. I worked independently to sort donations efficiently and accurately. I kept records of all the donations that came in and calculated what containers were full and which ones needed to be replaced. I worked longer hours which allowed me to build my stamina within the workplace—filling and sorting through materials as well as disposing of harmful and hazardous materials. Evaluate the condition of donations and determine whether they should be resold.

Studio Movie Grill, Colleyville — *Trainer*

Oct. 2016 - Jan. 2019

I worked 20+ hours a week managing the front desk and processing transactions while managing to keep straight As throughout high school and my employment in college. I was in charge of training new employees on the customer-facing and kitchen responsibilities. I was promoted to a trainer and was in charge of customer service when customers first walked in and the last face they saw when they left so I had to be positive and find ways to excite and improve customer's experiences. In the kitchen, I was in charge of preparing drinks and delivering food and drinks to their respective seats. I was in charge of preparing the kitchen for large crowds and maintaining the efficiency of the drunk output so I didn't get behind.

NRH2O, North Richland Hills — *Cashier*

Apr. 2016 - Sep. 2016

I worked as a cashier in many different areas of the NRH2O waterpark. I adapted to the different working environments to maintain work efficiency. I had to maintain a clean workplace and have an understanding of the POS system. I became efficient in handling money and transactions which contributed to my problem-solving and fast-paced work ethic. I learned how to keep a workspace clean and how to navigate the chain of command to communicate with upper management.

PROJECTS

GSA Christmas party — Christmas party with auction

I organized a Christmas party with Christmas snacks made by the members of the group that were available for auction during the party. I organized the

music and drinks for the event so people would have entertainment and something to drink. I organized the participants who made snacks what items to make and how much to make. I communicated with the administrator's office to use one of the classrooms to hold our Christmas party. The party sold out all the food items and people who came provided a bid on the auctioned item which was held at the end of the event.
