

9/22/16

Stacy,

I can finally, officially thank you for writing a glowing recommendation that helped me get in to graduate school. I hope that I was able to put your kind words into action and do them some justice.

After just over two years, a few regional conferences, researching the climate of the LGBTQIA+ community at UH, and countless papers, I can proudly say I've finished my Master's in Higher Education Administration with a 4.0 GPA! Thanks for believing in me, pushing me when I was your student, and supporting me.

Sincerely,

Teri Lee
