Icebreakers

04

Final Comments

What is Girls in STEM?

- Our organization aims to bridge this gap through **direct communication and support in accessing educational resources for young women all over the nation.**
- We want to provide kindling to the spark of intellectual curiosity within these young women so that the lack of representation does not extinguish their passion.
- There are many ways to become involved in this organization as we offer broad types of positions, including online mentorship and internships for leadership board positions.

Introducing our team

Co-President Beverly

I'm a fourth-year pharmaceutical sciences major. I'm from Arcadia (SoCal), and I like to play video games and read on my free time.

Co-President Cindy

I'm a transfer student finishing up her last year as a Pharmaceutical Sciences major. I'm originally from the Bay Area, and I love gardening and designing aquariums!

Vice President Elena

I'm a second year Bio Sci major from Russia, and Kansas and currently live in Laguna Niguel CA (SoCal). I love to watch anime, listen to kpop, and read in my free time. After I graduate I plan on attending medical school and becoming a Neurologist.

Introducing our team

Social Outreach Meha

I'm a second year Math major with a specialization in Data Science. I'm from Santa Clarita (SoCal) and I currently live in Irvine, CA. In my free time I enjoy playing piano and researching fashion trends/inspiration.

Secretary Kimia

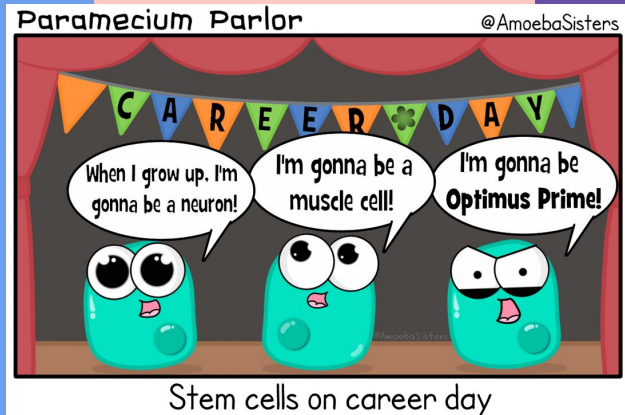

I'm Kimia, and I'm from Iran. I graduated from UCI last summer. Since then, I have been involved in biomedical research. I am interested to become a transplant surgeon. In my free time I enjoy drawing and painting.

Treasurer Viviana

I am a UCI alumni and from Hesperia, CA. I started my first year of graduate school at USC and I'm passionate about health justice. In my free time, I enjoy playing video games, reading thought provoking literature, self-improvement activities, and volunteer work.

Online Mentorship

- We need **encouraging and enthusiastic mentors** who can inspire and support young girls interested in pursuing STEM through online correspondence/mentorship. This position is open to UCI students and UCI alumni passionate in mentoring. Specific duties include:
 - Participation in monthly/weekly meetings
 - Forming a pen-pal style relationship via email with young girls pursuing STEM careers nationally.
 - Brainstorming ideas and gathering resources that could help target age group
 - Ex: High School: AP Exam and College Apps Support
 - Ex: Elementary /Middle: Interactive Ideas and lessons.

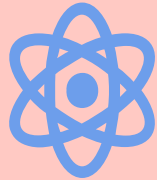

Board Member Applications

$\sqrt{-1}$ 2^3 Σ π
