Comments & Feedback

Attendee A

"I loved karaoke because it was a good bonding experience for student leaders between different departments. We got to see act other outside of a professional setting"

Attendee B

"I truly enjoyed the speakers that came and spoke about their experience, especially the trailblazing women. Also, I enjoyed connecting with our faculty and hearing their visions for UCI"

Attendee C

"[least favorite was...] the lack of engagement with other student groups. I wanted to hear about other programs and what they were planning to do this year"

Attendee D

"The schedule was packed and I wish we had more time interacting with students just to discuss with each other. Breaks would also be more helpful throughout."

PANEL DISCUSSION

Trailblazing Women: Inspiring Leadership and Success Panel Discussion

Satisfaction Survey

115 students were satisfied
from 123 students

Comments

Attendee A

"I thought their input was insightful and gave perspective to the experience of women in a professional setting."

Attendee B

"I believe everyone was able to explain their own struggles as women working in higher roles. However, I feel for the panel itself it could be moved a little bit earlier just to have students more engaged since the first day was almost the whole day."

Attendee C

"I believe everyone was able to explain their own struggles as women working in higher roles. However, I feel for the panel itself it could be moved a little bit earlier just to have students more engaged since the first day was almost the whole day."

Attendee D

"This was my favorite activity. So much so that I wrote the quotes down in my diary and will use it to motivate my school year. Thank you for inviting these amazing women."

Attendee E

"Again were too long and some of their advice is interesting but not much relating to the prompt"

Attendee F

"This truly inspired me and helped me gain the confidence that women can make a positive impact !!"

Attendee G

"I loved seeing such strong, independent women who have dealt with a lot of issues and braved through them."

Attendee H

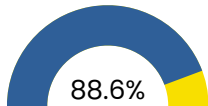

"I appreciate that the women were from different fields, allows for fresh and diverse perspectives!"

52 Cards Activity

Comments & Feedback

Attendee A

"I believe the energizer really elevated my mood, especially having to wake up so early in the morning."

Attendee B

"The roomie activity wasn't applicable to some people because they had solo rooms, so it would be great if it was structured around something else."

Attendee C

"It would have been great to have more speeches from biotech leaders and biology leaders."

Attendee D

"Wished there were more networking opportunities, this could be done by reducing presentation time."

Discussion with Leadership

Discussion Satisfaction Survey

84.5%

104 students were satisfied from 123 students

Comments & Feedback

Attendee A

"I felt the open Q&A didn't strongly impact me as the leadership questions were surface level and 15 minutes per session per 3 leaders wasn't enough time to talk more about deep topics. Additionally, I was hoping for more discussion about the campus environment and how we can effectively lead the campus community as student leaders."

Attendee B

"It was a good opportunity to ask questions and meet upper administration. Their perspectives on what it's like to work in academia were very insightful."

Attendee C

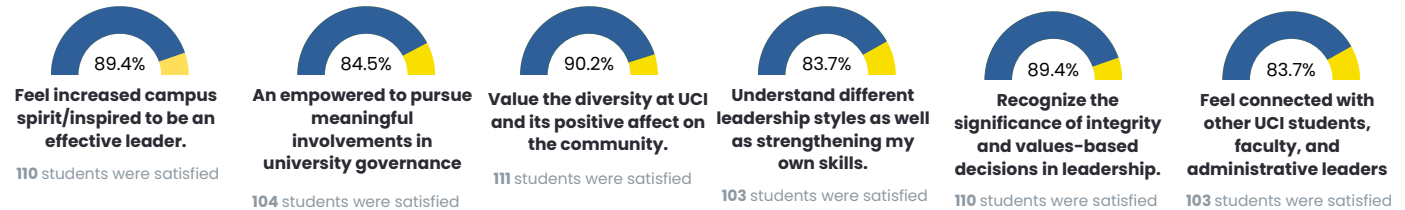

"I loved all of the presentations and being able to interact with the forum. I wish that we could have had the whole group of leadership speakers because I was really looking forward to hearing from everyone."

Dr. Talesh

Dr. Flojo

Lesley Aguirre

Avery Yoshitomi

Individual Comments

For Dr. Talesh

"Dean Rameen did a really solid job of explaining free speech from the perspective of a UCI administrator – it isn't an easy job keeping both admin and students in mind, and he also explained the history in a really fascinating manner"

For Dr. Flojo

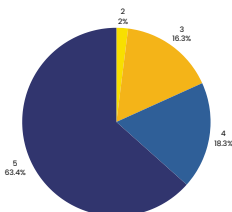

"Truly a wonderful and kind speaker. It felt therapeutic and much needed to openly discuss our mental health and effective models to navigate it."

For Lesley

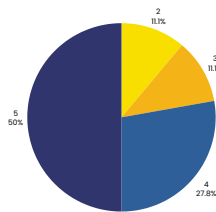

"I loved this workshop because it gave me the opportunity to reflect on my past and the suppressed feelings I try not to dwell on. It was a bit emotional for me but I felt it was necessary."

For Avery

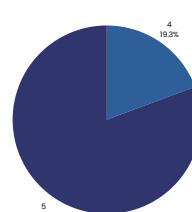

"Provided advice and information on how skills that ive developed during my time as a student can translate over into leadership positions."

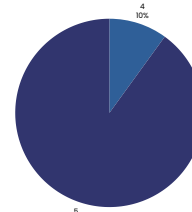

Dr. Taback

Michelle Mallen

Sherwynn Umali

Dr. Johnson

Individual Comments

For Dr. Taback

"Amazing workshop, really got into the essence of conflict and how to resolve issues in a calm manner while seeking what direction to take such interactions."

For Michelle

"I came in now knowing what civic engagement really was, but now know it focuses on how to strengthen your own community. In addition, I was able to learn more about my core values (especially towards my spiritual) and how to make proper time for them in my life."

For Sherwynn

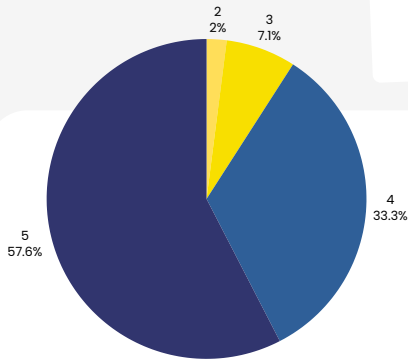

"I enjoyed it, I believe that providing students with the opportunity to practice public speaking and provide in person feedback is such a great way to expose students on how to be an effective public speaker."

For Dr. Johnson

"I appreciated that she encouraged us to consider our own thinking and I liked how she called out advocates that claim to represent students yet aren't interacting with the minorities and other programs that students are affiliated with."

OVERALL FEEDBACK

Recommendation

111 students out of **123** would recommend ALL-U to another UCI Student Leader

Positive Impact

Attendees A

"The friendships I made and networking opportunities I encountered."

Attendees B

"Karaoke was very memorable."

Attendees C

"I truly enjoyed the speakers that came and spoke about their experience, especially the trailblazing women. Also, I enjoyed connecting with our faculty and hearing their visions for UCI. Lastly, I learned about other sponsors programs available on campus that I will share with my mentees."

Points of Improvement

Attendee D

"Maybe the amount of time for the first day. We could start a little later in the day and cut down some things just to make sure students are more awake and engaged during the day as well."

Attendees E

"I didn't like how the time was too short for discussion panels and meeting fellow leaders at the conference."

Attendees F

"It was difficult to take in so much information at once."

Feedback regarding the Venue

Attendee A

"I feel the venue was very nice and had enough space for all the workshops and activities"

Attendee C

"Time to check-in, change and rest in the rooms should've been given a little earlier in the day to rest and rejuvenate before a packed day."

Attendee B

"The venue was great, but I wish we could do more activities outside or with more things involving the space around us. The Hilton was a pretty standard hotel, but was overall a good experience."

Attendee D

"Lunch day 1 (sandwiches) was not inclusive of all dietary restrictions and preferences. We should have been given the option to get dropped off at the hotel or bus."
