Peer-Reviewed Conference Papers

Note in Computer Science fields conference papers are the primary form of dissemination rather than journal papers. These conferences have acceptance rates comparable to journals (e.g., below 30%). The acceptance rate for CSCW 2019 was 31.1%, the acceptance rate for CHI 2020 was 25.7%, the acceptance rate for CHI 2023 was 28.4%. Pervasive Health did not publish acceptance rates in 2015 or 2022 but noted it averaged below 30% in preceding years, the published acceptance rate in 2018 was 24%.
