Why Survey Post-Pandemic?

- I care about you as both employees and individuals
- I want to ensure your basic needs and emotional needs are being met – then work with you to fill gaps where we find them
- I want to discover where I have been successful in this new COVID and post-COVID environment – and where additional training would be beneficial
- I want the opportunity to learn where our team stands on engagement post-pandemic
 - Is our team more, less, or equally engaged than in 2021?
 - What should I do differently to drive engagement in 2024 and beyond?
