Interdisciplinary Elective

NRS 392: Compassionate Care Across Communities: Interprofessional Perspectives in Serious Illness and End of Life

- **Explore Your Role** – Identify how your discipline enhances palliative care and explore shared responsibilities and insights with peers.
- **Build Collaboration Skills** – Strengthen interdisciplinary communication and effective coordination.
- **Innovate Together** – Envision how teamwork and innovation can transform palliative care.
- **Cultural & Ethical Perspectives:** Examine how compassionate care is shaped by collective expertise, cultural values, and community engagement.
- **Applicable to Many Fields** – Palliative care connects to IHW, Social Work, Psychology, Theology, Education, Communications, Nursing, Ethnic Studies, Business, Arts, Political Science, Finance, Computer Science, and more!
