Teaching and Learning Collaborative: Support for Great Teaching at UP

Dr. Tara Prestholdt
Associate Professor of Biology
Recipient of UP's 2018
Teaching Excellence Award

Teaching and Learning Collaborative

The TLC site is a network of colleagues and offices on campus who support one another's efforts to be excellent teachers. On the TLC site you will find a variety of tool kits, strategies, and content. Visit <http://up.edu/tl> for an archive of teaching materials from your peers on a wide range of topics including internationalizing curriculum, using peer review in class, Teaching Circles, inclusive practices and more.

Watch UPBeat and Pilot Announcements for news of peer-led teaching workshops each semester. Fall 2018 topics cover mental wellness, untethered lecture capture and JOY in STEM teaching.

The TLC will post short videos and articles weekly in UPBeat, which can be viewed in the length of time it takes to enjoy a cup of coffee or kombucha at your desk. Contact TLC through Karen Eifler at eifler@up.edu with your questions about teaching, and ideas that TLC can bring to life.

Technology Resources for Teaching

Virtual Learning Center:

Professional Development at your fingertips around the clock. Check out the short course offerings at <http://sites.up.edu/vlc>. Each module is designed to be completed at your own pace. Earn Digital Badges on completion.

Lynda.com:

All UP faculty and staff have unlimited access to the excellent training videos at <http://lynda.com>. Learn about photography, video, web design, Word, Excel, Powerpoint, and hundreds of other topics. To access, visit go.up.edu and log on with your UP username and password.

Virtual Service Center:

Tech support any time anywhere. Request a service technician, download software, search the knowledge base, reverse training, and more! To access, visit <http://go.up.edu> and log on with your UP username and password.

Tech Talk Blog:

Visit <http://sites.up.edu/techtalk> for all things tech on the UP campus. Find out about new services, tech tools, and resources. Updated monthly.

On The Bluff Studios:

Visit <http://sites.up.edu/bluffstudios> to find out how to access a student-driven media production studio for videos, audio, graphic design, and other instructional media in Tyson Hall. Contact bluffstudios@up.edu.

Academic Technology Ambassadors:

This is a new initiative that aims to recruit up to 12 members from the academic community to spread the word about and encourage constructive conversations around academic technologies and professional development.

UP Crossroads:

Conversations that connect teaching and technology held in the Parberry Room on the second floor of the Clark Library and led by fellow professors. Visit the ATSI web page to see the dates for the conversations.

Who's Who

Help Desk:

For Help with personal email, network connections, desktop computers, software, and mobile devices.

Location: Franz Hall 112

Phone: Ext. 7000

Email: help@up.edu
