3. You will receive an email to confirm the account created. Click the button or the long link.

Coursera is currently experiencing technical issues. You may or may not receive the verification email. However, you will still be enrolled in the program.

4. If the Verify pop-up persists, click “Dismiss” or “x” at top right corner. You can visit [Coursera.org](https://www.coursera.org) directly while glitch persists.

You will now see the homepage without the Join button indicating you have been enrolled.

You can now scroll down to explore the Coursera Career Academy.
