Academic Appointments

Primary:

- 2020 – present Professor of Psychology, The University of Texas at Dallas, Richardson, TX
- 2014 – 2020 Associate Professor of Psychology (formerly Psychological Sciences), The University of Texas at Dallas, Richardson, TX
- 2009 – 2014 Assistant Professor of Psychology, Southern Methodist University, Dallas, TX

Secondary:

- 2019 – present Adjunct Associate Professor, Department of Psychiatry, University of Texas Southwestern Medical Center, Dallas, TX
- 2010 – 2019 Clinical Assistant Professor, Department of Psychiatry, University of Texas Southwestern Medical Center, Dallas, TX

Academic Training

- 2008 – 2009 Center for Functional Neuroimaging, Department of Radiology, University of Pennsylvania, Philadelphia, PA: Post-doctoral Fellow in Neuroscience Neuroimaging
Mentors: Ruben C. Gur, Ph.D., John Detre, M.D.
- 2006 – 2008 Brain and Behavior Laboratory, Department of Neuropsychiatry, University of Pennsylvania, Philadelphia, PA: Post-doctoral Fellow in Clinical Neuroscience
Mentors: Ruben C. Gur, Ph.D., Raquel E. Gur, M.D., Ph.D.
- 2005 – 2006 Dorothea Dix Hospital, Raleigh, NC: Clinical Internship (APA Accredited)
- 2004 – 2006 University of North Carolina – Chapel Hill: Ph.D., Clinical Psychology
Faculty Advisor: David L. Penn, Ph.D.
- 2000 – 2004 University of North Carolina – Chapel Hill: M.A., Clinical Psychology
Faculty Advisor: David L. Penn, Ph.D.
- 1996 – 2000 Texas A&M University: B.S., Psychology
Special Recognition: University Undergraduate Research Fellow
Summa cum Laude

Ongoing Research Support

Social Cognition Harmonization Award (Pinkham, AE) 08/01/2022-08/31/2022
Schizophrenia International Research Society
This Research Harmonization Award (RHA) seeks to develop a unified, cross-culturally valid

approach to social cognitive research that will facilitate comparison of results across studies and ultimately contribute to treatment development and evaluation.

Total Direct Costs: \$5,000

Role: Convener/PI

R01-MH112620 (Pinkham, AE) 6/1/18-2/28/23

NIMH

Introspective Accuracy, Bias, and Everyday Functioning in Severe Mental Illness

This study aims to: 1) learn how impaired introspective accuracy contributes to difficulties in real-world functioning, 2) understand how introspective accuracy differs from other types of self-awareness, and 3) discover how clinical symptoms affect the amount and direction of introspective accuracy impairments.

Total Direct Costs: \$2,594,887

Role: Principal Investigator

R01-MH112620-03S1 (Pinkham, AE) 6/25/20-2/28/23

NIMH

Introspective Accuracy, Bias, and Everyday Functioning in Severe Mental Illness (Supplement)

This adjunct award via the National Institute on Aging will support the extension of the parent award to the study of individuals with mild cognitive impairment.

Total Direct Costs: \$333,250

Role: Principal Investigator

R01-MH116902 (Depp, CA) 4/1/19-1/31/23

NIMH

Social Cognition and Suicide in Psychotic Disorders

This project will longitudinally assess social cognitive biases as risk factors for suicidal thinking and behaviors in psychotic disorders.

Total Direct Costs: \$2,627,588

Role: Site PI

Previous Research Support

Autism Grant (Pinkham, AE) 8/1/18-7/31/21

Texas Higher Education Coordinating Board

Improving Social Outcomes for Adolescents with Autism during the Transition to Adulthood via Neurostimulation and Inclusion Training

This study strives to identify which factors predict the quality of social interactions between typically developing (TD) individuals and those with autism spectrum disorders (ASD). The efficacy of neurostimulation for improving social interaction in ASD will also be investigated as well as the effects of participation in an inclusion training program for TD individuals.

Award Amount: \$305,130

Role: Co-Project Director (co-PD: Noah Sasson)

R01-MH112620-02S1 (Pinkham, AE) 3/1/19-8/31/19

NIMH

Introspective Accuracy, Bias, and Everyday Functioning in Severe Mental Illness (Supplement)

This adjunct award via the Research Supplements to Promote Diversity in Health-Related Research Program will support the research efforts and training of an individual from a group that is traditionally underrepresented in health-related research.

Total Direct Costs: \$15,953

Role: Principal Investigator

R21-MH112930 (Pinkham, AE) 4/17/17-01/31/19
NIMH

Investigating a Neurobehavioral Mechanism of Paranoia

The primary goals of this project are to use longitudinal and experimental methods to: 1) test whether neural activity in brain regions associated with processing threat and social stimuli may underlie paranoid thinking and 2) determine if this mechanism is similar across individuals regardless of clinical status or diagnosis.

Total Direct Costs: \$275,000

Role: Principal Investigator

Faculty Research Initiative (Pinkham, AE) 11/1/17-8/15/18
UTD, School of Behavioral and Brain Sciences

Stimulating the Brain to Improve Self-Awareness in Psychosis

This pilot project will utilize transcranial direct current stimulation (tDCS) to test whether introspective accuracy can be improved in individuals with diagnoses of schizophrenia or schizoaffective disorder.

Award Amount: \$5,000

Role: Principal Investigator

R15-MH1015945 (Sasson, NJ) 06/1/14-05/31/18
NIMH

Social Cognitive Profiles of Autism and Schizophrenia

This project systematically compares social cognitive performance in autism and schizophrenia in order to specify disorder specific profiles, assess the contribution of general cognition to these profiles, and determine their relationship to social functioning.

Total Direct Costs: \$317,068

Role: Co-Investigator

R01-MH093432 (Pinkham, AE) 03/01/12 – 01/31/17
NIMH

Social Cognition Psychometric Evaluation (SCOPE)

This is a multi-site, multiple-PI project aimed at improving the assessment of social cognition for treatment outcome trials in schizophrenia. Using an experienced team of collaborators, we intend to use proven methods of consensus development to identify existing instruments, evaluate their usefulness, and modify them as needed to improve their utility as outcome measures.

Total Direct Costs: \$2,224,349

Role: Principal Investigator (co-PIs: Drs. Philip Harvey and David Penn)

Sam Taylor Fellowship (Pinkham, AE) 11/01/12 – 05/01/14
United Methodist Church, General Board of Higher Education and Ministry

Social Cognitive Abilities in Individuals with Autism Spectrum Disorders

This pilot project will expand the SCOPE study by including a small sample of individuals with ASD. The primary aim is to assess the applicability of the SCOPE social cognitive battery for inclusion in treatment trials for ASD.

Award Amount: \$1,950

Role: Principal Investigator

Dean's Research Council (Pinkham, AE) 02/01/11 – 08/31/12

Southern Methodist University

An Investigation of the Specificity of Amygdala Activation in Schizophrenia as a Biomarker of Paranoia

The central aims of this study are to utilize fMRI to examine the specificity of amygdala dysfunction in schizophrenia and to determine if differential amygdala responding may be a biological marker for susceptibility to paranoia in individuals with schizophrenia.

Award Amount: \$25,000

Role: Principal Investigator

University Research Council (Pinkham, AE)

01/25/10 – 05/31/12

Southern Methodist University

Neural Substrates of Sub-clinical Paranoia

This pilot project uses fMRI to examine a potential neural basis of heightened paranoid thinking in otherwise healthy individuals.

Award Amount: \$9,900

Role: Principal Investigator

Mental Health Research Grants for Tenure-Track Assistant Professors in Texas (Pinkham, AE)

Hogg Foundation for Mental Health,

06/01/10 – 09/30/11

Social Cognition and Relationship Discord in Severe Mental Illness

This project investigates social cognition and social skill in individuals with severe mental illness in the traditional context of interacting with a previously unknown research confederate and in the unexamined area of interacting with a relationship partner.

Award Amount: \$15,000

Role: Co-Principle Investigator

T32-NS054575 (Detre, JA)
