Hey there, fellow Juniors! Start off your third year of university strong by following this roadmap to success. Don’t forget to visit us for career advice.

**STEP 01**
Reflect on your interests. It's important to be intentional about career choice. There is not one right next tip for you. It is likely that there are many roles that can help you grow professionally and personally.

**STEP 02**
Decide if graduate or professional school is necessary to reach your career goals. If so, begin researching schools, application deadlines, and preparing for entrance exams.

**STEP 03**
Schedule an appointment to have your resume and cover letter critiqued and reviewed and begin practicing your interview skills.

**STEP 04**
Create a LinkedIn account to assist with networking, internship and job search and skill building via LinkedIn Learning. Attend our LinkedIn workshop.

**STEP 05**
Begin internship search and the application process a full semester before you plan to complete your internship to avoid last minute searching. Schedule with a career consultant to discuss internship search strategies.

**STEP 06**
Learn appropriate attire for professionalism and networking events by attending professionalism workshop or meeting with a career consultant. Purchase a business professional suit or look into the Comet Closet to rent one.

**STEP 07**
Attend career and internship fairs and other networking events to form connections with employers and identify professional opportunities. Register on Handshake to see upcoming fairs.
